30s

1932
Sherman Kelley vacations in West Palm Beach and observed a young woman struggling while dipping ice cream. He resolved to find a better way.

1933
Kelley develops the design for the Zeroll® Ice Cream Scoop and receives a patent.

1935
Kelly established The Zeroll Co. in his garage in Toledo, Ohio

40s

1940-1945
The early success of The Zeroll Co. was stalled by World War II. The aluminum needed to produce the scoops was diverted to wartime use and the business was virtually dormant for several years.

1945-1949
The Zeroll Co. was one of the first to obtain aluminum after the war.

50s

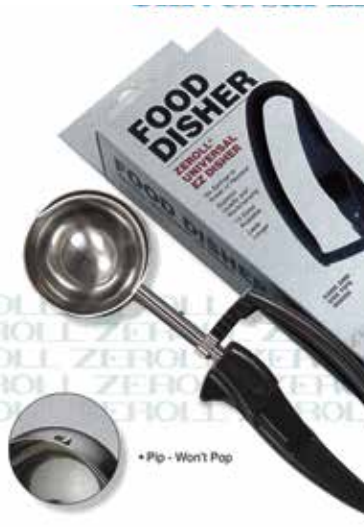

1950
Sherman Kelley passes away, and his son Ralph takes over.

1953
Ralph moves the company to Maumee, Ohio and changed its name to Roll Dippers, Inc.

This was a slow period for the company.

LEGACY

From humble beginnings in a garage, The Zeroll Co. is proud of its heritage and will continue to be a pioneer in the world of small wares for years to come.

60s

1968

The Funka brothers purchased it in 1968. Tom and Art Funka enjoyed the challenge of turning The Zeroll Co. back into the successful business it once was.

70s

1981

The company was moved back to Toledo, and the name changed back to The Zeroll Co.

Mid-80s

The Zerolon® line of scoops was developed.

1989

The Universal EZ Disher, was developed and available in thirteen sizes.

80s

90s

1990

The Zeroll Co. moved to Ft. Pierce, FL.

TODAY

The Zeroll Co. is owned by The Legacy Companies. Manufacturing moved to Weston, FL. The Universal EZ Disher was re-introduced. The Original TubMate® Spade was re-designed with a longer handle and thicker blade. The Zelato® Spade, a brand new product designed as a portioner for gelato, joined the Zeroll product line to rave reviews. And the USSENTIALS line and frozen treat makers also launched.

Made in USA

THE ORIGINAL SCOOP

The Zeroll® Ice Cream Scoop is considered the first modern ice cream scoop. The design for the Zeroll ice cream dipper received a patent in 1935. For over 75 years, The Zeroll® Co. has continued to dominate the marketplace in company reputation and product quality. The Original Zeroll® Ice Cream Scoop has undergone no substantial changes in its design since its introduction in 1935 and is still manufactured in the United States of America.

The World's First
LIQUID FILLED
Scoop

No Springs to Replace and Only One Piece Design.

Unique Heat Conductive Fluid Inside of Handle.

Up to 20% More Volume of Ice Cream by Avoiding Compression.

Design for Right or Left Hand Use.

Improved Aluminum Alloy that Helps Resist Oxidation and Corrosion.

Color Coded End-Caps for Easy Size Recognition.

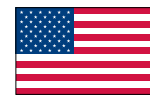

GET MORE!

Increase profits using portion management with the Original Zeroll® Ice Cream Scoop.

For example, the base weight per gallon of ice cream is about 72 ounces. A three gallon tub will yield about 108 portions using a size 20 scoop. Use the size chart (page 4) and the per gallon weight to manage your servings.

THE ZEROLON SCOOP

Made in USA

HARDCOAT ANODIZED

ZEROLON SCOOP

The Zerolon Scoop includes all of the same great benefits and features as the Original Scoop, but with a Hardcoat Anodized exterior! It is the perfect solution for wherever highly chlorinated or high-mineral content water is present.

HOW TO

GET MORE!

1

Hold the scoop handle comfortably in either hand, down toward the bowl.

2

Draw the scoop toward you at an angle of about 5 degrees.

3

Turn the scoop, lifting portion out of the container and press against cone or dish.

ORIGINAL ITEM #	ZEROLON ITEM #	SIZE	COLOR	CODE	WEIGHT per portions

SPADES & ZELATO

Available in
ORIGINAL
or
ZEROLON

SPADES

The ideal solution for leveling tubs, hand-mixing and hand-packing. Designed to match the radius of ice cream cartons for faster, cleaner knock downs. Simply scrape the side of the carton and level the top of the ice cream to increase yield and prevent ice crystals.

- Extended handle prevents contamination.
- Thicker blade for longer service life.
- Self-defrosting fluid sealed in the handle.
- Design for right or left hand use.
- Regular use will help to reduce waste.

ENGRAVING & EMBOSSING

Made in USA

LASER ENGRAVING

Laser engraving has become the easiest and most economical way to personalize your Zeroll products.

- 12 piece minimum order.
- Short lead times.
- More intricate/complex logos and text.
- Image area - 4" (W) x .75" (H)
- Available on all Zeroll Ice Cream Scoops and Spades.

CUSTOM EMBOSSING

Custom embossing is the perfect solution if you are looking for permanent customizing.

- 1008 piece minimum.
- 10-12 weeks lead time.
- One time charge for Nameplate.
- Casted permanently on the scoop's handle.
- Image area - 2" (W) x .50" (H)
- Available on all Zeroll Ice Cream Scoops and Spades.

LASER ENGRAVING GRAPHIC REQUIREMENTS

Unless otherwise indicated, all nameplates are positioned to be right hand readable. We do not create artwork. If you are only engraving text, select a font, and submit a layout. All raster files need to be re-drawn, and must be at least 850 x 850 pixels or larger. Vector art images in the following formats are preferred: EPS, DXF/DWG, or Ai (Adobe Illustrator)

Sample Policy/\$35.00 Includes: Logo preparation, 1 sample, and shipping.
With an order of 36 or more, the sampling charge will be applied to your order.

Submit your graphics to: artwork@zeroll.com

USSENTIALS

COOK IN COLOR *Unleash Your Creativity*

Zeroll® Usentials signature craftsmanship and mouth-watering color palette define a combination of durability and elegance unmatched in the industry. Made with unparalleled attention to detail and engineered with commercial quality materials, these products stand up to the most extreme conditions.

Each tool is ergonomically designed to match the task with the most comfortable feel and ease-of-use. The Usentials grip is made for maximum control and comfort. The weight of each tool is centered and therefore, easy to hold in a usable position, especially for repetitive use. The handle is intended to extend across the breadth of the hand's palm to minimize compression. The shape of the handle reduces unnecessary wrist rotation. The details in engineering ensures that artistry meets the needs of the chef.

Whether you are a world renown chef, or the head cook in your personal kitchen, you deserve comfortable, contemporary tools that are functional and beautiful. Zeroll will out-cook and out-color the competition.
