# The Plus In StorPlus™

The Coldmaster solution eliminates the inconvenience and mess of ice, as well as reduces the potential for bacteria. The Coldmaster solution is revolutionizing the food pan category, offering innovative solutions and making work easier.

## The Coldmaster Solution

- High-impact ABS plastic holds up to foodservice use
- Extra insulation surrounds refrigerant gel for maximum cold retention and reduces condensation
- Refrigerant gel is enclosed in a bag; prevents leaks, even if shell is damaged
- Exclusive refrigerant gel ensures high performance  
Non-toxic gel receives a cold "charge" when frozen overnight, which enables it to keep your food cold throughout the day

## Competition

- Gel is not enclosed in a bag, less protection if there is a break
- Units must be stored upside down or food in the unit is not chilled at the top of the pan
- No additional insulation means that there is much less "chill time"

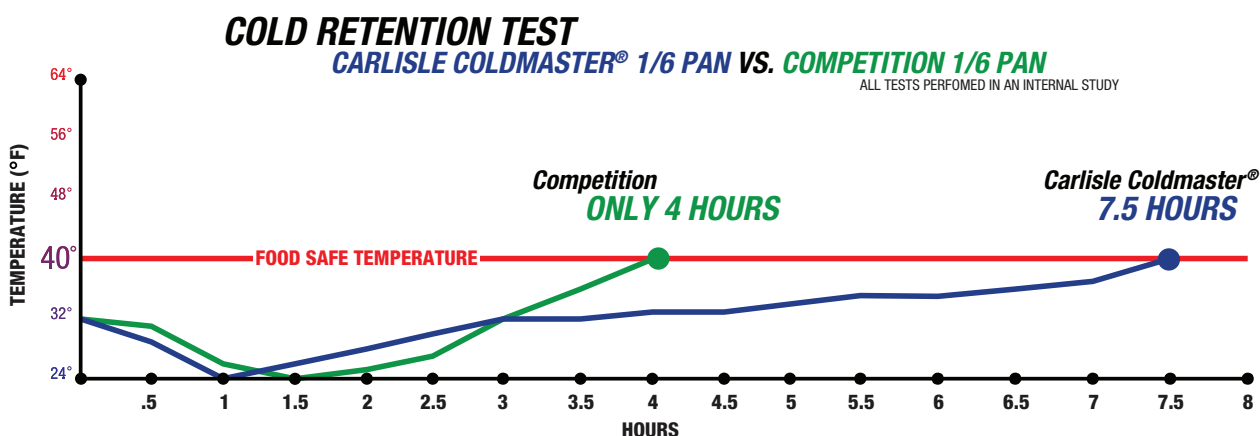

Extensive sweating due to lack of insulation
