# The HyGenie™ Hands-Free Sanitizer Dispenser

Avoid spreading hand-based microbes with this hands-free dispensing solution.

## Hands-Free Cleanliness

It's no secret that hands are one of the germiest parts of the body. While other sanitizer dispensers actually encourage spreading hand-based microbes by design, the HyGenie™ allows for hands-free dispensing with its lever that can be pumped by a forearm. Light and portable, the HyGenie can easily be set up where needed most. A drip-free valve conserves sanitizer gel, while a 2.5-quart reservoir makes for quick refilling, saving labor without compromising cleanliness.

## Features & Benefits

- Hands-free dispensing—use forearm to pump lever
- No-drip valve conserves sanitizer; preset to 2ml portions
- Lightweight yet durable construction
- Sanitizer reservoir holds up to 2.5 quarts
- Easy to disassemble and clean
- Dishwasher safe components
- Customizable graphics on lid

Model 10950-1

**nemco** powered by **ASEPT**

**HANDS-FREE**  
Dispense with forearm

**ADA COMPLIANT**  
Less than 5 lbs  
pressure to dispense

## Suggested Uses

Great for any environment where personal and facility hygiene are a priority, the HyGenie is the perfect hands-free sanitizing solution for dining areas, payment counters, restrooms, breakrooms and other common areas, giving staff and customers an alternative to conventional and potentially contact-hazardous hand pumps.
