## **Vertical Contact Toaster Model: VCT-1000**

**VCT-1000**

**VCT-1000 with  
Bun Feeder**

**VCT-1000 with  
Mechanical  
Butter Wheel  
and Bun Feeder**

The Vertical Contact Toaster model VCT-1000 is designed for contact toasting of buns.

The toaster design allows the operator to place buns on both sides of the heated platen at the same time. Buns are placed into the top of the toaster, and uniform, golden brown, warm buns are then retrieved at the bottom.

The Vertical Contact Toasters are manufactured from the finest materials available and assembled to Roundup's strict quality standards. All units are tested at the factory to ensure dependable trouble-free operation.

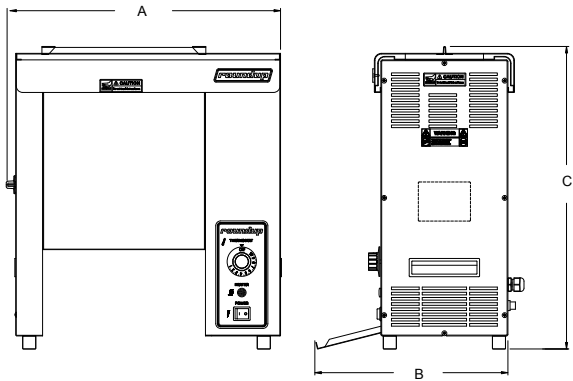

### **Features:**

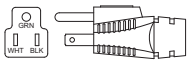

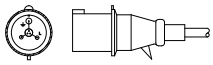

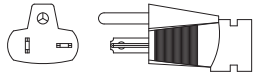

- Bun components – heel, crown, and club sections – are toasted with one setting.
- Easy-to-adjust dial thermostat.
- Space-saving vertical design.
- Continuously moving conveyor allows for immediate toasting.
- 10- to 28-second pass-through time.
