

## **Vertical Contact Toaster Model: VCT-2000**

**VCT-2000**

**VCT-2000 with  
Wide Mouth  
Bun Feeder**

**VCT-2000 with  
Mechanical  
Butter Wheel**

**VCT-2000 with  
Heated Base**

The Vertical Contact Toaster model VCT-2000 is designed for contact toasting of buns. The toaster design allows the operator to place buns on both sides of the heated platen at the same time. Buns are placed into the top of the toaster and uniform, golden brown, warm buns are then retrieved at the bottom.

The Vertical Contact Toasters are manufactured from the finest materials available and assembled to Roundup's strict quality standards. All units are tested at the factory to ensure dependable trouble-free operation.

### **Features:**

- Space-saving vertical design.
- Double-sided platen toasts on two sides for twice the capacity compared to conventional single-sided toasters.
- Staggered bun delivery helps keep sandwiches hot.
- PID electronic solid state temperature controller.
- 10- to 23-second pass-through time.
