

/// Prevent the spread of germs and infectious disease when handling food product and promote safe cleaning practices with the Hand Wash Timer.

For more than 10 years, the Hand Wash Timer by Antunes has been helping foodservice operations encourage safe cleaning habits worldwide. The HWT displays a repeating 20-second countdown to provide a visual reminder of the recommended time for properly washing hands. It is touchless and requires no user intervention to operate or activate, and it helps employees and reminds customers to conform to health and safety requirements while also demonstrating a commitment to safe cleaning practices.

HWT-20

FEATURES:

- /// Entirely touchless function.
- /// Continuous 20-second countdown.
- /// Runs on two AA batteries with an estimated operating life of three years.
- /// Attaches to any surface — mounting kit with adhesive included.
- /// Encourages safe cleaning habits to prevent the spread of infectious diseases.
- /// No user intervention required to operate or activate the timer.
- /// Helps employees conform to the HACCP safety requirements.
- /// Assures customers that your employees have a procedure for healthy standards.
- /// Demonstrates to local health inspectors your commitment to safe cleaning practices in the restaurant.

The Correct Way to Wash Hands:

1. Wet hands and apply liquid soap.
2. Rub hands vigorously together and scrub all surfaces.
3. Continue until the Hand Wash Timer completes a full cycle. The soap combined with vigorous scrubbing helps dislodge and remove germs.
4. Rinse thoroughly and dry hands with a clean towel.

Operation

Follow these instructions for mounting the timer, changing the batteries, and using the timer to properly wash hands.

Mounting the Hand Wash Timer

The Hand Wash Timer will mount directly to any flat steel surface with the magnetic backing.

/// Note: Thoroughly clean the surface where the Timer is to be mounted before proceeding. Observe the proper cleaning procedures as required. Mount the Hand Wash Timer in the location that best suits your operation.

- 1) If desired, use the Universal Mounting Bracket by carefully peeling the backing from the adhesive and secure the Universal Bracket to the chosen mounting surface.

/// Note: Thoroughly clean the surface where the Timer is to be mounted before proceeding. Observe the proper cleaning procedures as required. Mount the Hand Wash Timer in the location that best suits your operation.

- 2) Attach the Hand Wash Timer to the Universal Bracket or directly to a magnetic surface.

Changing Batteries

The Hand Wash Timer comes with two AA batteries installed. These batteries have an estimated operating life of 3 years. In the event the batteries need to be changed, follow these steps:

- 1) Remove the four screws from the rear of the unit and remove the back panel.
- 2) Remove and properly recycle the two old AA batteries.
- 3) Install two new AA batteries. The unit should begin to operate automatically.
- 4) Re-attach the back panel and secure with the four screws.

Proper Hand Washing Technique

- 1) Wet hands and apply liquid soap.
- 2) Rub hands vigorously together and scrub all surfaces.
- 3) Continue until the Hand Wash Timer completes a full cycle. The soap combined with vigorous scrubbing helps dislodge and remove germs.
- 4) Rinse thoroughly and dry hands with a clean towel.

Cleaning the Timer

To clean the timer, wipe it lightly using a clean, dry towel. Do NOT submerge the timer in water. Do NOT wash it in a dishwasher. This will void the warranty.
