Stand available with fixed casters (2 locking & 2 non-locking) - dimensions are the same as stand with legs. Stand is not suitable for use with cove mount base.

For safe operation, stands are for use with units of the same width only (ie: 48in stand for 48" unit).

Many local codes exist and it is the responsibility of the owner and installer to comply with those codes.

Garland/U.S. Range products are not approved or authorized for home or residential use, but are intended for commercial applications only. Garland/U.S. Range will not provide service, warranty, maintenance or support of any kind other than in commercial applications.
