Cabinet Construction

Heavy duty stainless steel countertop, textured and laminated black vinyl exterior. Galvanized steel interior wall and high quality stainless steel floor. 1 3/4" thick high density foamed-in-place polyurethane insulation. Built-in caster thread receptacles for all units.

Refrigeration System

- Side mounted condensing unit
- Oversized condenser and evaporator coils quickly achieve and maintain desired temperature
- Forced-air cooling with oversized evaporator fan motors provide balanced airflow throughout cabinet to ensure faster temperature drop
- Removable side panel and slide-out condensing unit for convenient repair and maintenance
- Environmentally friendly CFC free R-134A refrigerant
- Air defrost controlled by electrical timer
- Copper tube and aluminum fin evaporator with anti-corrosive coating
- Energy efficient condensate drain pan assembly heated by high side copper tube
- Pre-wired and ready to plug, 115V/60Hz/1Ph, NEMA 5-15P

Lighting

- Shielded vertical LED interior lighting with on/off switch for energy efficiency, minimal heat generation and enhanced illumination

Doors

- Textured and laminated black exterior with galvanized steel interior for solid doors, and black PVC frames with low emissivity double pane glass system for glass doors
- 1 3/4" thick high density foamed-in-place polyurethane insulation
- One piece snap-in magnetic door gaskets for easy replacement
- Heavy duty recessed and die-cast door handles
- Door locks

Draft Arms

- NSF approved 3" diameter insulated stainless steel draft arm with air distributor

Shelving

- Two epoxy coated wire shelves
- Stainless steel pilasters and shelf clips

Temperature Control

- Factory preset temperature, 35°F
- Temperature setting range from 32°F to 42°F
- Easy to set analog thermostat

Options

- 2 1/2" and 4" diameter casters (3 1/2" and 5" overall height)
- Dual faucet towers

5 YEAR Compressor
3 YEAR Parts & Labor
