

# HARD SURFACE *Cleaning* FOR THE BUSINESS OF TOMORROW

## SANI STATION Sanitizer & Cleaner

Sanitation demands have literally changed overnight. Are the products you're using evolving with it?

With Sani Paks by Sani Station, cleaning & sanitizing hard surfaces is easier and more effective than ever. **NO EXTRA STEPS, NO EXTRA PRODUCTS, NO CONFUSION.**

Not all sanitizers are created equal. In fact, many are often used incorrectly. Incorrect usage = more risk, not less. Understanding and using the right chemicals in the right way is our public responsibility. That's why we've created a suite of products designed to be powerfully impactful, yet simple to use.

Protect the health of your business by using Sani Station products as part of your food safety strategy.

- Proprietary blended cleaner and solution 2-in-1 product — **NO OTHER STEPS REQUIRED**
- FDA, EPA, and NSF D2 approved
- Packets are pre-portioned for easy chemical dilution, no measuring required

## NEW DEMANDS REQUIRE NEW TOOLS.

### IF YOUR SANITIZER:

- Requires a soap/detergent clean prior to use
- Needs a water rinse prior to sanitizing
- Has a soil load restriction
- Does not prevent biofilm
- Has a long contact time requirement
- Does not address allergens

## IT IS TIME FOR A CHANGE

ITEM	DESCRIPTION
SANIS05-100	0.5 ounce packet - 100 count
200105HSKIT	Includes: 32 oz spray bottle, 1 case SANIS05-100, 1 tube of chlorine test strips

**IDEAL FOR: ALL HARD SURFACES, EQUIPMENT, UTENSILS AND MORE**

# SANI PAK INSTRUCTIONS FOR USE

Sani Station Sanitizer & Cleaner solution can be used to clean and sanitize equipment, utensils, and other food/non-food contact surfaces. Mix fresh solution as needed by following the dilution ratio.

## DILUTION RATIO:

One (1) 0.5 oz Sani Pak per 32 oz/ 1 qt HOT water. Correctly diluted product should test at 199ppm available chlorine.  
\*For use in either spray bottle or Kleen-Pail application.

## TO CLEAN:

Apply as necessary to completely coat the surface with Sani Station Sanitizer & Cleaner solution. Use clean brush/towel/sponge to scrub surface until visibly clean. Wipe clean.

## TO SANITIZE:

Spray as necessary to completely coat the surface with Sani Station Sanitizer & Cleaner solution. Allow to soak for at least 60 seconds. Use clean towel to remove excess solution. No rinse needed.

## NOTES:

Spray bottle must be labeled with the Sani Station hard surface label provided. Spray bottle should only be used with Sani Station Sanitizer & Cleaner solution. Do not use or mix spray bottle with any other chemicals. Store at room temperature with other chemical products.

## SANI PAK COMPOUND EFFECTIVENESS

## AFTER 60 SECOND CONTACT TIME

Microorganism	Percent Reduction	Log Reduction
E. Coli	99.99992%	6 log reduction
Listeria	99.98%	3 log reduction
MS2 Bacteriophage	99.99996%	6 log reduction
Salmonella	99.99993%	6 log reduction
Staph Aureus	99.99986%	5 log reduction
Allergen		
Gluten	No Detection	No Detection
Lactose	99.98%	3 log reduction
Peanut	99.9994%	5 log reduction

Test conducted and analyzed by independent 3rd party lab
