TBB-3SB

FEATURES & BENEFITS

- Efficient refrigeration system**
 Turbo Air's refrigerators are designed with oversized and balanced R-134A (CFC Free) refrigeration systems. These include efficient evaporators and condensers for faster cooling and greater efficiency.
- Forced air cooling system**
 Fast cooling and balanced temperature throughout the cabinet.
- Stainless steel countertop and interior**
 The exterior of cabinet is constructed with heavy gauge reinforced stainless steel countertop and wear-resistant black vinyl coated galvanized steel. Interior is stainless steel except galvanized steel top. Turbo Air Back Bar model guarantees utmost in cleanliness and long product life. It also can add a touch of style to the most refined setting.
- LED lighting interior display system**
 Brighter and longer lasting LED lights provide attractive, enhanced illumination compared to fluorescents. It saves energy by producing less heat.
- Triple pane thermal glass (SG Models)**
 Triple pane thermal glass provides extra ability to maintain cool temperatures.
- High-density polyurethane insulation**
 The entire cabinet structure is foamed-in-place using high density, CFC free polyurethane insulation.
- Adjustable, heavy duty, PE (polyethylene) coated wire shelves**
- Ergonomically designed doors**
 Customers' fatigue fades away with easy grip handles and doors that open effortlessly. These features along with self-closing doors make this the ultimate choice in customer convenience.
- Side mount compressor unit**
 By positioning the compressor on the side of the unit, refrigerators can now be serviced without being moved. Our innovative, front breathing feature also allows this model to provide high efficiency in narrow spaces.
- Refrigerator holds 33°F ~ 38°F for the best in beverage preservation**
