Ice Cream Dipping Cabinets

Model : TIDC-26W(G)

TIDC-26W

TIDC-26G

≡ FEATURES & BENEFITS ≡

- **Locked-in temperature equal from top to bottom**
 New technology of the Cold Wall System eliminates temperature fluctuations throughout the top and bottom areas of the interior cabinet. No more melting ice cream above while freezing below. Scooping has never been easier.
- **Efficient refrigeration system**
 Turbo Air's dipping cabinets are designed with oversized and balanced (CFC Free R-134A and R-404A) refrigeration systems. These include efficient evaporators and condensers for faster freezing and greater efficiency.
- **Attractive contemporary design with curved glass front and top**
 Sleek new curved front and top glass is attractive and draws attention at once. Deep lowered glass front optimizes product visibility and impulse buying. This merchandiser is perfect for ice cream viewing and dipping.
- **Standard plastic can holder for each container rack**
 Each container rack comes standard with an ABS plastic can holder in standard. Attached on top of the ice cream containers, it holds the container firmly in place and provides attractive display appearance.
- **LED lighting for interior canopy**
 Brighter and longer lasting LED light bulbs produce less heat, saving energy while maximizing its display effect. Independent on/off light switch equipped.
- **Manual defrost system**
- **Easy grip rack handles**
 PE coated wire container racks have easy grip handles for convenient product removal.
- **Standard plastic night covers for case opening**
- **PE coated removable magnetic frost shields**
 Provides fast and easy removal of accumulated frost on inside walls.
- **Maintains -10°F ~ 8°F for the best in frozen Ice cream preservation.**
