

IN-CLASSROOM DINING WASTE SOLUTIONS

EFFECTIVELY MANAGE

HIGH VOLUMES OF WASTE

CDC guidelines recommend that schools serve individually plated meals in classrooms instead of communal dining halls and cafeterias to help reduce the spread of infection.* Rubbermaid Commercial Products offers a variety of waste solutions, designed to support in-classroom meals.

FOOD TRANSPORT

Safely transport meals to classrooms throughout the facility with ergonomic mobility solutions.

WASTE & RECYCLING COLLECTION

Multi-stream refuse containers are ideal for in-classroom waste & recycling collection.

WASTE & RECYCLING MOVEMENT

Utilize Rollouts and Tilt Trucks to collect and transport high-volume waste and recycling.
