- Low Cost-in-Use
- Improved Hygiene

TC Enriched Foam Skin Care System

The perfect balance between luxury and value, the TC Enriched Foam System uses highly concentrated, rich foam soaps in a controlled dose dispensing system to provide up to 2,500 hand washes per refill - nearly 4x's more than traditional liquid soaps and up to 43% more than similar foam systems. Uniquely engineered for one-handed delivery of soap right into the palm of your hand.

Superior User Experience

TC Enriched Foam contains special skin conditioning ingredients to soothe the skin for a refreshing cleansing experience. Soap formulas are highly concentrated to provide a richer, denser foam quality that leaves hands feeling smooth and soft.

Low Cost-in-Use

More hand washes with fewer refills reduces labor and costs. A metered pump provides a controlled 0.4 ml dose of concentrated soap, eliminating over use and costly waste - the number one problem with soap systems. Every refill has a new pump, preventing mess, clogs and leaks.

Improved Hygiene

TC foam is delivered fresh and clean to encourage use for better hygiene. The antimicrobial Push Bar on dispensers utilizes a revolutionary technology, reducing the potential for cross-contamination. Hygienic, sealed refills keep soap fresh and clean, providing a more sanitary system.

TC Enriched Foam Performance:

TC Foam Dispensers:

- Antimicrobial Push Bar on dispensers reduces cross-contamination
- Refill Level Viewing Window
- Easy tape or screw mounting
- Refills dispense 0.4 ml per dose

ADA COMPLIANT

Stock# Wall-Mount Dispenser

750382..... 800 ml Stainless Steel
