### Safety Touch Design:

When cooking surface is 700°F, exterior is only 150°F

### Balanced Covers:

Patented cover design provides perfectly balanced lifting. The cover remains parallel to the cooking surface up to a height of 2-3/4", for even grilling of thick sandwiches or other foods.

### Compact System:

The electrical connections of the covers pass through a metal tube inside the body of the appliance. This patented design greatly reduces overall dimensions and allows the grill to be positioned against the wall.

### Easy cleaning:

Scraper included for easy cleaning of smooth plates.
