Notes & Conditions:

- 1. Ensure that you have dedicated power wherever you are planning to use your Mobile Induction Cooking Station. Refer to the Operation Manual for detailed instructions regarding power requirements & specific operating instructions.
- 2. For optimum performance, your MAX Induction® Ranges must have good air circulation. <u>Your induction</u> <u>range must have proper ventilation at all times.</u> Refer to your MAX Induction® Operation Manual for steps on how to properly clean and maintain your induction range(s).
- 3. Induction ranges require the use of ferrous metal, induction-ready cookware.

Due to continuous product improvement, specifications are subject to change without notice

Refer to Individual Specification Sheets for the Induction Ranges, as well as the AF-350 Air Filtration System for detailed maintenance instructions
