

# PUMPS: STAINLESS STEEL PUMP & NON-INSULATED BASE COMBOS

Models SR-2, SR-3 & SR-4

## WHAT DO YOU DISPENSE?

- ◊ **THIN** • fountain syrups • liqueur • hot or soy sauce
- **THICK** • ketchup • mustard • mayo • bbq sauce
- **PARTICULATES** • tartar sauce • Thousand Island

◊  
**SR-2 82910**

◊  
**SR-3 82870** (SHOWN WITH COLORED KNOBS)

◊  
**SR-3 82830** (SHOWN WITH COLORED KNOBS)

## BID DESCRIPTION

Server Products Syrup Rail combinations have a non-insulated stainless steel base with a brushed (#4) finish to reduce the visibility of fingerprints. Stainless steel FP-V fountain jar pumps feature a cast valve body with captured valve balls to prevent loss. A maximum portion of 1¼ oz (37 mL) per stroke can be reduced in ⅛ oz (3.7 mL) increments with supplied gauging collars. Rails include one plastic fountain jar, 10" (25.4 cm) deep per pump.

For custom dispensing solutions that allow up to six flavors in a single base, see Bar & Rail Components.

## STANDARD FEATURES

- Stainless steel construction with a brushed finish on base to reduce the visibility of fingerprints
- 1¼ oz (37 mL) maximum portion is adjustable in ⅛ oz (3.7 mL) increments—allows for Portion Optimization™
- Colored, engraved knobs are available upon request (contact customer service for options)
- See Bar & Rail Components, to create your own combination

## ACCESSORY ITEMS

- Fountain Jar, Plastic, White, 10" (25.4 cm) 82557
- Fountain Jar, Plastic, Black, 10" (25.4 cm) 83149
- Fountain Jar, Plastic, Orange, 10" (25.4 cm) 83156
- Pump Lock (slides over lid & jar to hold together) 80443

## TWO YEAR WARRANTY

Server Products equipment is backed by a two-year limited warranty against defects in materials and workmanship. For a copy of our complete warranty statement, please refer to [server-products.com](http://server-products.com).

### Stainless Steel Pumps Quickly Pay For Themselves

Using a simple Portion Optimization™ method, our stainless steel pumps can dispense what a menu item needs versus what standard equipment can provide. Currently, menus are created using the 1/4 ounce portion increments standard pumps and ladles offer. However, simply by reducing the portion by 1/8 ounce can create significant savings. And more impressively, it doesn't have a perceivable change in the taste profile.

### How Does Portion Optimization™ Work?

Our stainless steel pumps include gauging collars that allow the pump to dispense a smaller 1/8 ounce increment as well as the industry standard 1/4 ounce incremental portions. This slightly smaller portion size pays for your equipment investment in a matter of months — and continues for the life of the pump.

*ROI Example: Reduction Size .125 (1/8 oz)*

Portion Size	1 oz	7/8 oz	Annual Savings
Cost/Portion	\$0.10	\$0.0875	<b>\$450</b> <b>\$184 pump (sample list)</b> <b>pays for itself in</b> <b>5 months!</b>
Portions/Day	x 100	x 100	
Serving Days/Year	360	360	
Annual Cost	\$3,600	\$3,150	

The really impressive numbers occur when you multiply this savings amount by the number of ingredients you want to control. This previously overlooked adjustment can suddenly make a huge difference!
