Product Guide

Designed and built for the rigorous demands of the Foodservice Industry, these Insulated Food Carriers (IFC) are ideal for transporting food and beverages

KEEP Your Hot Food, Hot – Your Cold Food, Cold!

No Seams. No Leaks. No Bacteria

Our antimicrobial liners are seamless, which means there are no holes that sauces or liquids can seep through to form mold and cause odors in the insulation.

Easy Cleanup

If food or drinks spill, our seamless design contains the mess and allows it to be cleaned quickly and easily.

Super Tough

Superior Grade, tear resistant, long lasting vinyl liner holds up to the abuses seen in the industry – *and comes with a with 5 Year Leak-Proof Warranty*

Dense Foam Insulation

Our multilayered insulation design protects from outside temperatures while maintaining the temperature inside the IFC.

Keeps Your Hot Food, HOT

We've tested our bags to ensure that heat retention is maximized and maintained throughout the entire delivery cycle.

Keeps Your Cold Food, COLD

The ability to maintain a cold temperature is as important as maintaining a hot temperature. Our bags do both equally well.
