attachment methods

METHOD I: SNAP CLIP – Snap clips fasten into steel snaps that are permanently attached to the skirt header. Clips remain attached to the skirt when taken off the table

but are easily removed for laundering.

METHOD II: SNUG-TIGHT™ CLIP – Snug-

tight clips have a hook-side tab on the face and attach directly to the table over the table topper.

The skirting header is lined with a color-coordinated loop-side strip so it attaches easily to the clips.

clips

Snap Drape skirting attaches to the table edge with durable, injection-molded polycarbonate plastic clips which are guaranteed against breakage in normal use. We've specifically designed clips to fit a variety of table edges. Most clip sizes are available in both Snap and Snug-Tight attachment methods. Clips are not shown at actual size.

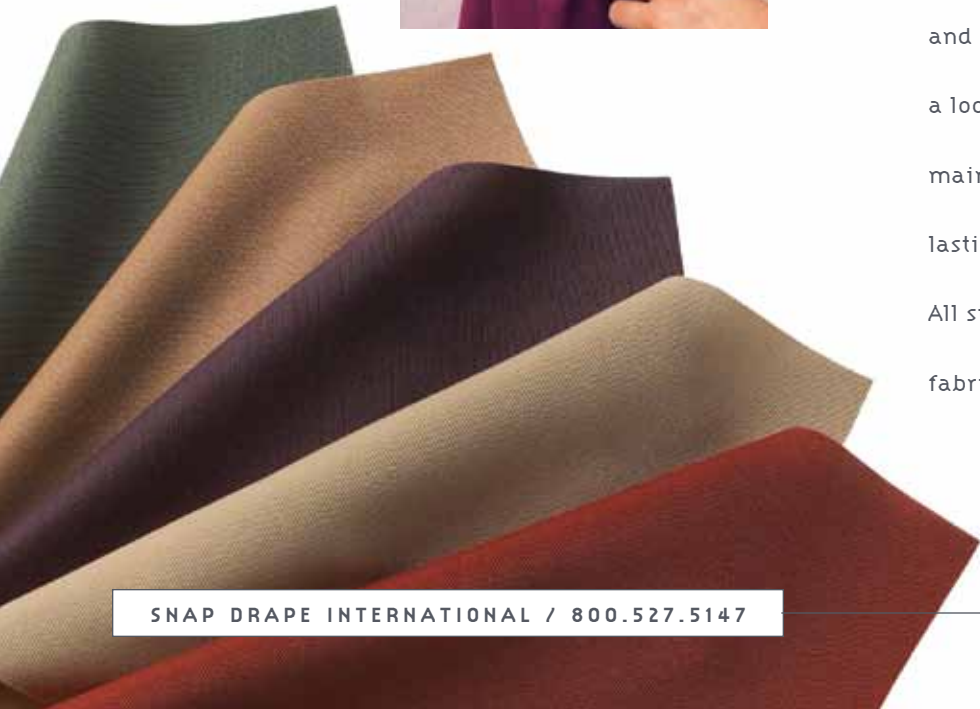

METHOD III: HOOK & LOOP — Loop-side strip is sewn onto the skirting header for easy attachment to hook-side tape

which is attached to table or stage edges.

METHOD IV: PLAIN BACKING — Skirting

is sewn with plain, reinforced backing for easy pinning to table toppers or tablecloths.

pleat styles

Snap Drape skirting is available in five styles: shirred, accordion, box, continuous and banded. Shirred, accordion and box pleat styles are

available with either Snap Clip or Snug-Tight™ Clip (hook/loop) attachment. Pleated headers are

reinforced with a sturdy backing and sewn with a lockstitch to maintain long-

lasting, attractive pleats.

All styles are available in all fabrics and colors.
